1. Introduction

You craft the concept and Rough Brothers provides the design; a perfect combination to insure a fully operational greenhouse or conservatory facility when the project is complete. Add Rough Brothers to your design team and let Rough Brothers take responsibility for the final performance capabilities. We offer both greenhouse design and design/build services. Whether teaching, education, research or exhibit space, Rough Brothers can create the design that meets your client's needs. We'll draw it, we'll engineer it and we'll equip it! MORE >>

3. Additional Information

Appropriate for education, research and conservatory applications, our GLASS HOUSE, R-HOUSE, and TECHLITE HOUSE specifications are available for downloading. But that is just the start. Our commitment to architects and engineers is to select the right specification for each job, and within that specification to consider equipment options which will deliver optimal greenhouse or conservatory performance.

We look forward to the opportunity of working with you and making your next greenhouse project your best greenhouse project.
