1. Introduction

Rough Brothers' Institutional team will help you achieve your institutional greenhouse goals, whether new construction or expansion of an existing facility. Rough Brothers will be with you at every step through the design, manufacture, and construction of your institutional greenhouse. Our goal is to create a growing environment for research and learning that suits your needs and works with your budget without compromising the quality of the institutional greenhouse materials and equipment utilized for your project. 2. Why Rough Brothers?

Rough Brothers' Institutional team is comprised of project managers, designers, engineers, systems integration specialists, and horticultural support staff. We will work closely with your team to determine the needs of your institutional greenhouse with regards to layout, type of glazing system and greenhouse equipment. Our talented professionals will create a fully functional design to optimize the performance and operation of your institutional greenhouse.

Our experienced team will select institutional greenhouse materials and equipment that ensure an energy efficient facility with minimal maintenance costs and maximum service life. We will also take into account the changing demands of your growing environment and the flexibility required for research or school curriculum.

Rough Brothers' project managers help coordinate with other trades to provide a seamless construction process. Our institutional team will provide all of the training and support required to operate and maintain your institutional greenhouse.

Your Rough Brothers' institutional greenhouse will be a place for plant life to flourish, students to learn, and experts to achieve their research goals. We take pride in the institutional facilities that we have designed, manufactured, and constructed and the relationships we have developed. We hope you will consider Rough Brothers' Institutional team for your future institutional greenhouse project.
